

What you can expect

- Globalization and increasing international teamwork show the importance of knowledge in transborder activities in construction.
- On the basis of selected examples of current and past international foreign projects, the differences and the special features concerning construction, contracts and the (construction) culture of various countries will be discussed, in comparison to Germany.
- The lecture will be given by **Dipl.-Ing. Steven Wilbrennink MBA**, a recognized expert in international projects, such as the construction of large sports facilities.
- The lecture is addressed to the students of **IuL and civil engineering**.
- The lectures are held in two blocks, each on two consecutive days – **participation is compulsory:**

Block 1 & 2: day events in May/June/July (tba)

Venue: Online

- Performance will be evaluated by a group presentation and an exam (50/50%).

Registration

- **First registration** for the lecture from **19 March 2021** to **4 April 2021** via E-Mail: fabian.geppert@ibl.uni-stuttgart.de
- Thereafter, you will receive further information and the registration can be completed via C@mpus.
- The number of participants is min. 15 to max. 30 students.
